Core Graphics

Part 1: Gradients

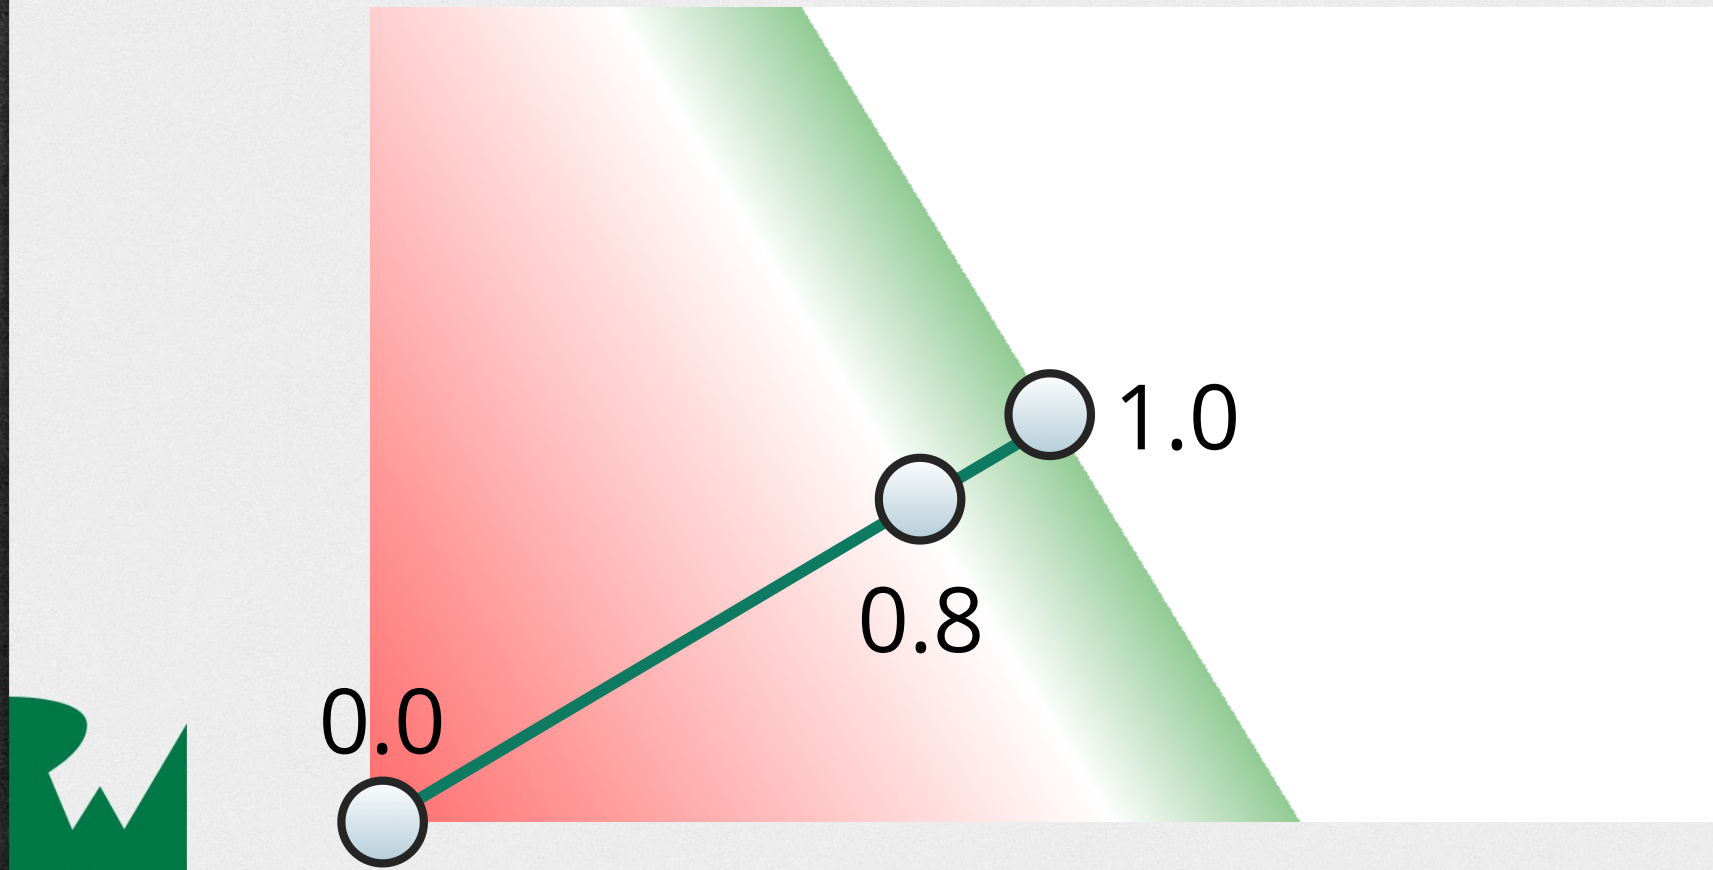

Our Goal

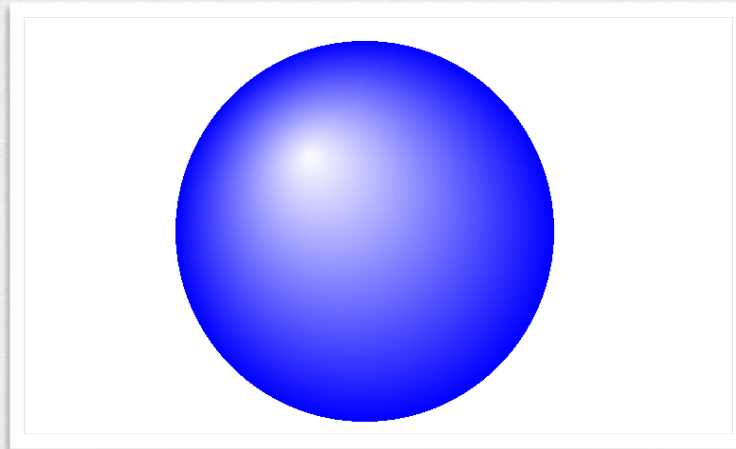

Gradient Drawing

Color Locations

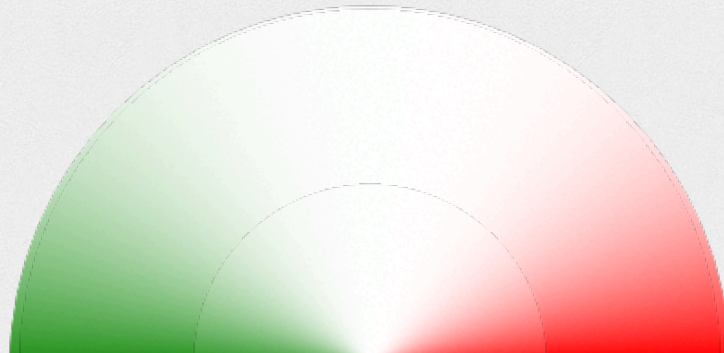

Radial Gradient

```
let startPoint = CGPoint(x:150, y:80)
let endPoint = CGPoint(x: 180, y: 120)
CGContextDrawRadialGradient(context, gradient,
                             startPoint, 0,
                             endPoint, 100, [])
```

Demo

Challenge Time!
